

PORTFOLIO— FERRUCCIO LAVIANI 2011

1—
6

Portfolio, a system of modular or fixed sofas designed to successfully complement even smaller environments thanks the reduced depth of the elements that make it up (D 960), without, however, neglecting the ergonomic qualities and comfort of the seat. Portfolio includes numerous elements that can be combined to create linear sofas or sofas with chaise lounges, ends without arms or corner elements. The cover both in fabric and leather can be completely removed. Individual armchairs and rectangular or square poufs complete the offer. One of the system's distinctive features are its feet - thin blades in laser cut and moulded steel. The same metal profile enhances the armrests of the armchair and a series of tables that can be placed to the side or rear and serve as storage consoles or placed in front of the sofa like small coffee tables. With wood, stone or matt lacquered tops these elements can successfully complement almost any home or public setting.
