

Wall hung, modular base units - middle or end use - without handle, with under-mounted handle-rail.
The door opening is allowed by the upper bevel of the door itself matched with the under-top-mounted handle-rail and the bevelled-edge countertop.

Countertop (1)

The tops have visible bevelled edges, on one or more sides, according to the project.
35° slicing. (lower bevelled edge). (1a)
THICKNESS: 50 mm
DEPTH: 505 mm
COMPATIBLE WASHBASINS: top-mounted, built-in and under-mounted.

Unit (2)

Made of 19 mm thick wood particle board panels, suitable for damp spaces indoors and with low formaldehyde emission (class E1, CARB P2 / TSCA Title VI certified), coated with thick and high performance melamine resin. Front and back edges in ABS, same colour.
SIDE PANEL HEIGHT: 300 - 635 mm (both compatible with built-in / under-mounted Boffi washbasins).
SIDE PANEL DEPTH: 470 mm.
DEPTH INCLUDING FRONT: 495 mm.
MODULE WIDTH: 300 - 450 - 600 - 900 - 1200 mm.

Doors and fronts (3)

In finish, 23 mm thick, with upper bevelled edge (door type BN).
On the fronts of end base units and on the end panels the vertical lateral edges are bevelled too.

Under top handle-rail (4)

In painted aluminium, placed between top and door, along all bevelled-edge top sides.
Longitudinal use. (4a)
Lateral use. (4b)
FINISHES: white - black - Silcolak - Ecolak - Clay - Easy Metals - Metals

Drawers (5)

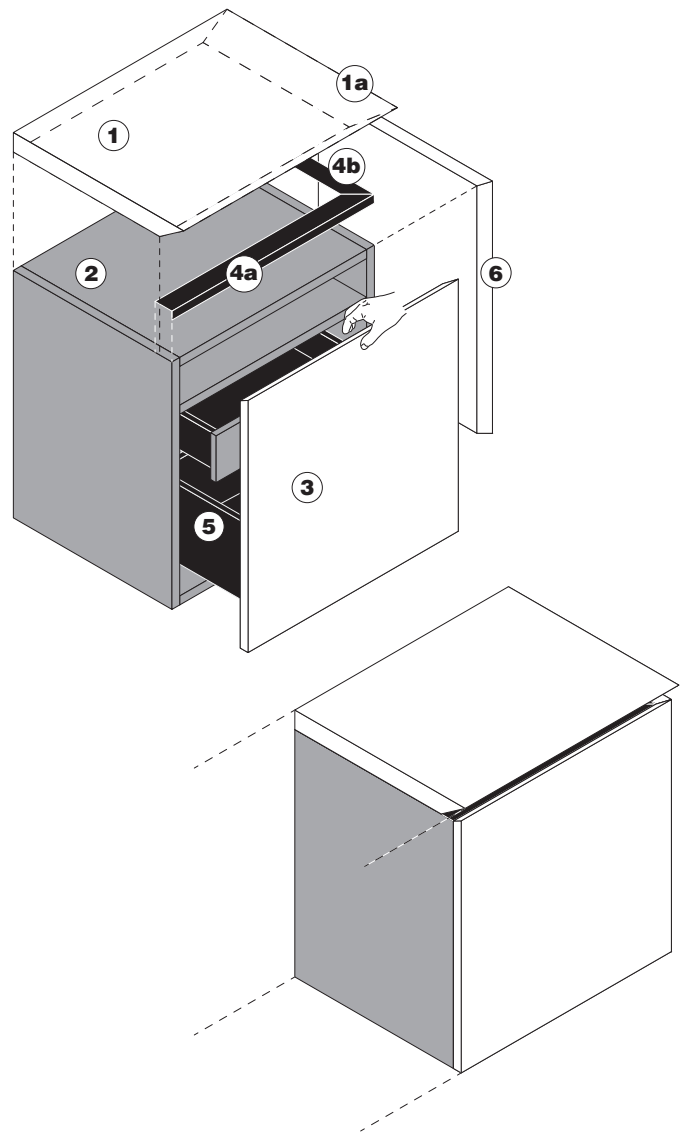

LEGRABOX series with sides and back in varnished matt black metal.
Black melamine-coated bottom.
Front of internal drawers in melamine, same finish as carcass.

End panel (6)

In finish, 23 mm thick.
Bevel on front and upper edge.

WARNINGS

ATTENTION - Compositions with stone/marble/granite fronts with a maximum length of 2400 mm are available.

Storage base units with hinged door. - H 612 mm

END-USE base unit fronts.

Elements of a base unit.

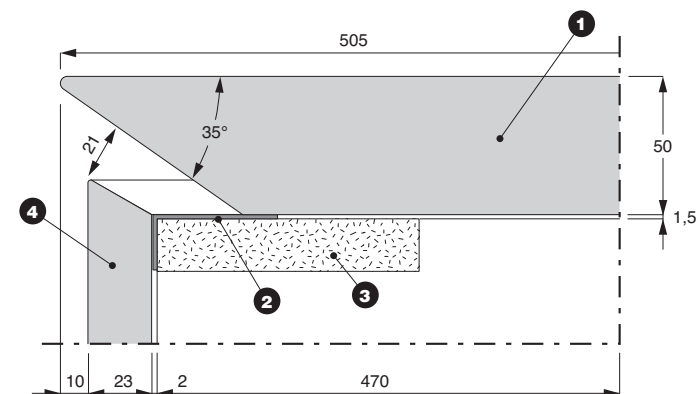

1 - MIDDLE-USE base unit H 300 / 635 mm.

2 - END-USE base unit with shelf H 300 / 635 mm.

3 - 23 mm thick END panel (S) with bevelled edge.

4 - Aluminium handle-rail.

* In case of END-USE base unit with shelf and hinged door, the door hinge has to be positioned always on the side opposite the bevelled one.

Cutaway view of the countertop with aluminium handle-rail

1 - 505 mm deep working surface.

2 - Aluminium handle-rail.

3 - 19 mm thick melamine-coated cabinet.

4 - 23 mm thick door in finish.

The under top aluminium handle-rail is thought to be placed on the upper perimeter of composition base units and consists of a longitudinal bar, whose length is the sum of the base units +3 mm.; and of two 471.5 mm bars.

The bars are appropriately bevelled, so as to guarantee a complete continuity of the handle-rail on the composition perimeter.

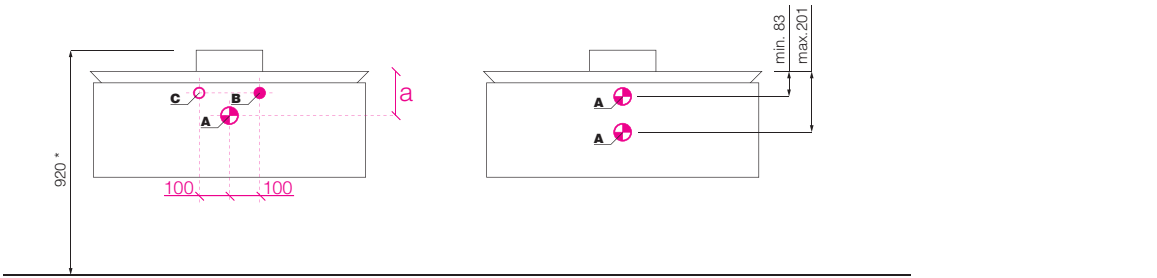

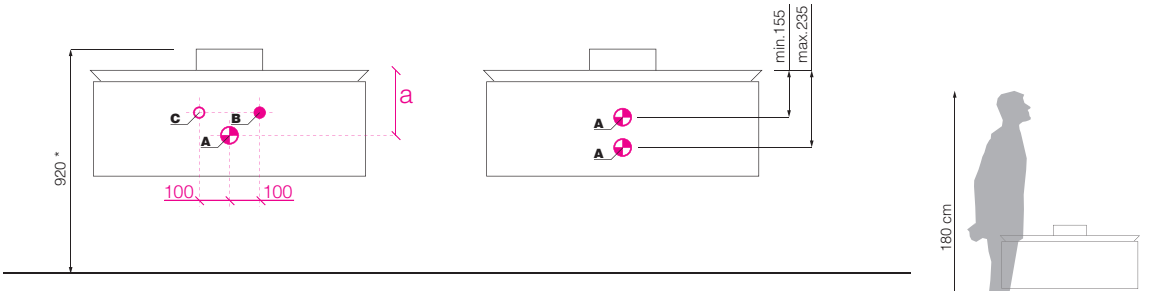

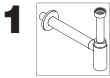

The top width is always the sum of the base units +35 mm. for each side with bevelled edge.

The top must be compulsorily purchased by Boffi as it characterizes composition function and image. In case of orders without top a price increase - fixed amount for each linear top metre - is applied (cod. JZAF16).
